

Bill

How many clients can say that they have known us for 20 years?
Veteran, Bill can!

“Not only did they help me find an apartment, but I had lawyers involved for custody of my children; I got both my little ones back who were 10 and 14 at the time”.

Our relationship with Bill began at his newly leased property opposite the Veterans ice rink in **East Somerville** where he lived until his boys went off to college. Bill became an **Arlington** resident for five years until a soccer injury turned sour and, in 2017, he had his leg amputated.

Well known in the community, the self-declared **‘Mr.Somerville’**, resides in his hometown of Somerville once again, in his ADA compliant apartment.

SHC Case Manager **Elijah** visits Bill weekly. Being in the same room as them, it is evident that their relationship is built on **trust** and **respect**.

“If anything Elijah helps me with my sanity. He's a great guy, a great listener and somebody to talk to and listen to and get things off my chest. He's my backup all the time”
