MATCHING GIFT PROGRAM

The Apache Matching Gift Program is an essential part of an effective community outreach program. In 2010, Apache and its employees donated a total of \$703,149 in matching gift funds. Apache matches employee contributions to charitable organizations on a dollar-for-dollar basis up to \$10,000 per employee per year until the annual match budget is depleted. The program matches donations to charitable organizations in social welfare, education, conservation and ecology, health and human services, arts and culture, and civic improvements.
