

## Volunteering Opportunities

Somerville Homeless Coalition (SHC) is a progressive organization that has been working tirelessly to fight hunger, homelessness and eviction since 1985.

Our mission simply is **'finding everyone a home'**. We care for homeless and nearly homeless individuals and families and tailor our services and resources and solutions to fit them. The ultimate goal is for our clients to achieve and maintain affordable housing.

With close to **8,900** clients on our books, each client has their own story. We look to journey with them and help navigate the many crises that are faced by each and every person, we are in it for the long-haul, we never give up!

In the past two years, we have distributed **61,206 bags of groceries**, prevented **275 evictions** and have **193** individuals/households currently in supportive, **permanent housing**.
